This is an important document.

The Financial Conduct Authority is the independent financial services regulator.

It requires us, Fundment Limited, to give you this important information to help you to decide whether our Junior Personal Pension is right for you.

You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

We do not provide or offer financial, legal or tax advice. You should seek your own financial, legal or tax advice from a Financial Adviser or another suitably qualified professional.

I Aims

The purpose of this Key Features document is to provide you with a clear summary about the Fundment Junior Personal Pension, so it is important that you also read this document along with the Platform Terms and Conditions, Fee Schedule, Product Illustrations and other documentation provided to you.

The Fundment Junior Personal Pension is a personal pension scheme designed to provide a pension for young people under the age of 18 to help them save tax efficiently for their retirement.

The pension allows an appointed representative to open and control the pension on behalf of the member until the member becomes 18 years old. At age 18 the Fundment Junior Personal Pension will be converted to a Fundment Personal Pension policy.

It provides your savings the potential for tax-efficient capital growth, income, or a combination of both, through investing in funds and other eligible assets.

The available investment options include model portfolios designed and run by various investment managers, unit-trusts, OEICs, exchange traded funds and investment trusts.

The pension allows you the flexibility, from the age of 55 (57 from 2028), to take benefits or remain invested. The pension can provide you a regular income when you retire, or a tax-free lump sum and a regular income.

The pension can also allow the provision of benefits for a spouse, civil partner or dependants in the event of your death.

Please take time to read this document and ensure you understand the key features and risks.

To enable us to provide you with up-to-date information, please ensure you notify us of any change in your personal circumstances and you keep a close working relationship with your financial adviser.

4. Your account may not have grown sufficiently to meet your income needs.

6. Our charges on your account will also affect the overall value of your account. The charges may change from time to time.
7. Unless you cancel within the first 30 days, you will not normally be able to access your pension until age 55 (57 from 2028).
8. If you transfer benefits from another pension scheme, there may be penalties and/or loss of valuable benefits, including guarantees.

3. Annual Allowance

The Standard Annual Allowance is capped at £60,000. This means that gross contributions paid above this amount might become taxable at your marginal tax rate.
